

Women in Family Business Leadership Lab

Join a group of women who are navigating the complexities of being part of a Family Business, whether employed, a spouse, or a current or potential shareholder.

“Today’s Lab reminded me that my family is not the only messy one. I’ve been part of other groups where they gave me solutions but didn’t understand the complexity of family business. I appreciate being in a space where everyone understands, and I don’t feel alone.”

-Kristen Donnelly, Abbey Research, Philadelphia
