

- Learn how to better navigate the complexity of family business
- Become more self-aware and grow emotionally and strategically
- Feel supported and challenged by peers
- Show measurable progress toward clear goals

Since 1992, our unique Leadership Labs for the Leading Generation helps you learn best practices in transition and family business governance across the 5 MOUNTAINS. In addition, these tight-knit groups support each other by providing input and insight as we bring practical and real-world challenges for discussion.

Included in the peer group is a quarterly executive coaching session to help clarify personal and professional goals, identify strategic issues, heighten accountability, and prepare for Leadership Lab presentations.

***For Leading
Generation
Leaders in
Family
Business***
