Sally – Chair
Sally has been guiding family businesses for 28 years

Beth - Coordinator
Beth is the spouse of a 3rd Gen family business owner

A peer group for women, designed around the many complexities and opportunities women face in a family business system. Whether your role is in the Family, Shareholder, Board, and/or Management Mountain, this group is about learning, listening, and leaning on one another as you develop your voice and skills.

*For Women
Leaders in
Family
Business*

- Monthly Group Sessions
- 9-12:30pm on the 3rd Tuesday
- Meet at DVFBC in Telford, PA
- Quarterly Coaching for input, development, & accountability

WHY JOIN?

Hear What Other Members Have To Say

Tracey Sandmeyer, G3

“Through my participation in lab, I found out I like leadership; it’s fun when you learn how to use your voice skillfully to help, knowing when to speak and not to speak. You can help and make a difference. Nothing is more important, more rewarding, more valuable than helping my family. Really glad I joined.”

Sue Landis, G2

“The Women's Leadership Lab has been a tremendous blessing for me personally and professionally, providing an accelerated growth experience as a woman and as a leader. There is gained trust in asking for and receiving honest feedback from other women. It has been helpful to realize that our family business is not alone in our dysfunction. I have experienced healing and growth since joining the group far beyond my expectations. This group has helped me have renewed hope and enthusiasm for my future!”

Samantha Fleming, G4

“I have learned that no matter what role we play, we are all influential. I am able to learn different perspectives from women in various roles in the family business. I get to learn how I can best influence my children and husband in a positive way in the family business. The leadership skills I am learning I am applying to all areas of my life, not just the family business. I am challenging myself to use my influence to build up other women and their leadership skills.”
