

PCS Network Evaluation & Security Assessment

Overview

PCS

ALWAYS ON. ALWAYS CONNECTED.
YOUR 24/7 TECH PARTNER.

Delaware Valley
FAMILY BUSINESS CENTER

The PCS Network Eval and Security Assessment is the most crucial step for understanding your current environment, needs, and expectations so we can deliver a personalized technology report. To complete the Eval, a PCS Engineer will conduct a full onsite review of the following:

Hardware

- Switches
- Firewalls
- Network-connected Devices
- Printers/Scanners/Copiers
- Internet Connectivity: evaluation of current and needed bandwidth, current ISP
- Server Review: number, types, roles, responsibilities, age, current load, capacity, viability, OS
- Desktops/Laptops Review: age, viability, OS

Backups

- Types (image-based, data only)
- Onsite
- Offsite

Anti-Virus

- Types (SaaS, full install, integrated into probes)

Software Review

- Server Applications
 - What is it used for?
 - Version – Up to date?
 - Replacement?
- Desktop Applications
 - What is it used for?
 - Version – Up to date?
 - Replacement?

Network Eval Timeline

The Network Eval is typically scheduled within one week after contact and Project Manager (PM) discussion.

A PCS Team Member and Engineer will arrive on site. The Network Eval will take 2-4 hours. (Multiple locations will take longer.)

The Engineer will take 2-4 days to write up the report draft and review with PM.

Approximately five days after the Network Eval, a Team Member will set up a meeting to go over the report and quote with you.

PCS helps keep your organization running, your team productive, and your data safe. We provide customer-first managed technology services and live, friendly support within 30 seconds via LiveLine. PCS is always on, always connected. We're your 24/7 tech partner.
